The game initially draws two boxes for text entry.

Once entered, it prints to console. It asks for First Name, initially.

Applet Viewer: GameLoop.class

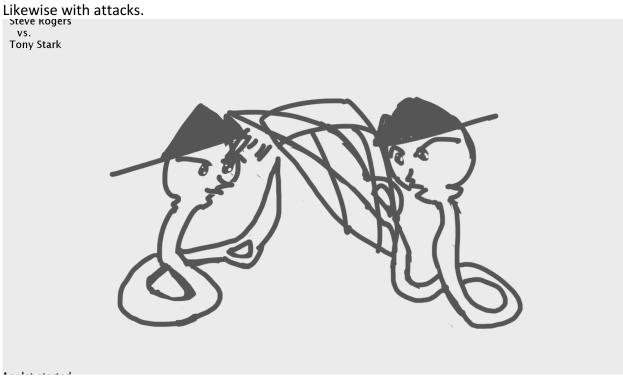

Applet started.

If a Block Command is pressed, the corresponding player's Flatworm is redrawn to reflect.

Steve Rogers
Vs.
Tony Stark

Applet started.

If a player successfully attacks a non-Blocking Flatworm, they win, the game asks if the players would like to rematch, and if so, set up combat phase with the winner's Last Name newly
